Produce, Groceries, Provisions, &c.

An active experience of eighteen years, extensive acquaintance with all classes of dealers, (both in city and country,) and a warehouse situated in the very centre of business, will, they think, afford great facilities for dispos ng advantageously of whatever may be consigned them, and of transacting satisfactorily any other business with which they may be favored.

They are the sole agents in this State for the renowned

A fact which the sale of

They are also the only agents in Virginia for the sale of the celebrated

Articles now so well known, and so generally used and appreciated, that it is unnecessary to speak more particularly of them.

They are also agents for two manufactories of

MACHINE STRETCHED LEATHER BELTING,

Of which they keep constantly a full stock, and are prepared to furnish any quantity of any width at very short n tice. Also, for

"A. Fraser & Co's" (Chillicothe) superior Pearl Starch,

PREFATORY.

THE Publisher in the following pages presents the results of his efforts to prepare a full and accurate Directory of the inhabitants of Richmond. When he undertook the task, he promised that it should be the most complete record of the names, residences, occupations, and places of business of our citizens ever published. He is confident that he has faithfully complied with this promise, and as evidence of the care and labor bestowed upon the work, he refers to the fact that it contains TWO THOUSAND more names than any former Directory.

The accompanying neatly executed copper plate MAP OF THE CITY has been prepared from actual surveys, and will be a most acceptable guide to strangers and others, through the streets and thoroughfares of the City.

The attention of the reader is invited to the advertising department, in which will be found the advertisements of our principal Merchants, Manufacturers, Mechanics and others. The Index to this department and the general Index, will convey an idea of the information which the work contains.

AMBROTYPES.

The subscriber having fitted up a suit of rooms in elegant style, at Corinthian Hall, is now prepared to wait on the public and furnish them with superior pictures, at moderate prices.

The Ambrotype, being hermetically sealed between two plates of fine polished glass, (by a cement which not only secures, but gilds and beautifies the impression) is proof against action of water or acids, or the variations of climate in long sea voyages, and is the only kind of picture that will remain unchanged by time. They can be taken from the size of full life to the smallest miniature, and in one-quarter the time of the Daguerreotype.—They are not reversed, can be seen in any light as an engraving; hence are very suitable for Pins, Lockets and large Frames, as well as Cases.

The extreme popularity of the Ambrotype, has given rise to much imposition. Counterfeits upon glass, covered with black varnish, are often sold for Ambrotypes. None are genuine without the patent stamp. The public are invited to call and examine specimens at the

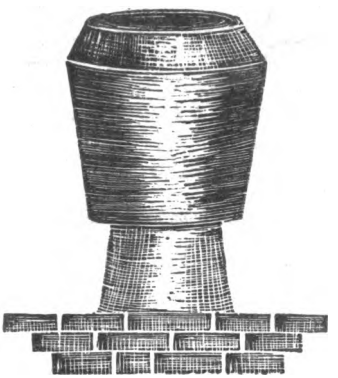
DAVIES'
CHIMNEY CAP.

PATENT GRANTED NOV. 6, 1855.



WARRANTED IN ALL INSTANCES.

This CAP is the result of an elaborate series of experiments, during a period of more than five years, by a practical workman, and is acknowledged by scientific men, who have examined it, to possess many advantages over all others now in use. It is exceedingly simple in its construction, and has been tried under almost every possible combination of circumstances. It has no part movable, and consequently is not liable to get out of order, and is very valuable in cities and places where a chimney is beside a higher object, as from its construction it is impossible that a current of air coming down upon it can affect the draught of the chimney.

STATE AND COUNTY RIGHTS FOR SALE.

They can be seen at the office of

J. W. DAVIES,

Main Street, between 8th and 9th,

And at the Store of
